TTRO/

Provide details of why a proposal to replace this temporary Order with an order of some other kind is not being considered

Alternatively, if you are considering a permanent Order, provide details of the progress (including consultation and notice dates etc.)

For Orders subject to 18 month limit

Orders not made for 18 months

Period of extension required (up to maximum of 18 months from Order start date).

4.5 years

What is the Authority's justification for continuing to limit the rights of the public on this route?

N/A

Orders made for 18 months

Provide details of the progress and/or delay in the making of the permanent Order to replace the temporary order

Boxted Bridge was closed due to safety concerns in June 2023 following the findings of a Principal Inspection.

A planning application for the replacement of the Bridge was applied in December 2021. The replacement of the structure was dictated by the loading and highway alignment requirements necessary for a new structure compliant to standards. Consultations have taken place since and additional work has been requested by the planning teams which has prolonged the process.

The following tasks need to be undertaken prior to the replacement of the Bridge and the reopening of the road:

Obtaining Planning application (anticipated leftover duration 6 months)

Complete Detailed Design (anticipated duration 1 year)

Undertake a Compulsory Purchase Order (CPO) for the land required (anticipated duration 2 years)

Site works (anticipated duration 1 year)

Based on the above it is proposed that the closure is extended to September 2029.
